REMARKS

The specification has been amended to correct minor informalities. Claims 1-27 have been revised to improve the grammar. No new matter has been added.

A Request for Approval of Proposed Drawing Change is submitted herewith, requesting the approval of changing "DEMODULATING CIRCUIT" in box 304 in Figure 18 to "LIGHT-ADJUSTING CIRCUIT". This is supported by lines 10-15 of page 27 of the specification, which state that the quantity of emitted light is controlled by a signal from the circuit 304. Accordingly, no new matter is added.

Respectfully submitted,
